

LOUD CAMPAIGN FOR REFEREE OF WILLARD FIGHT

TOLEDO, Ohio, May 28.—The big town ward politician with his checkered vest, smoldering cheroot and foghorn voice is a shrinking violet compared with some of the "campaign directors" of candidates for referee of the Willard-Dempsey fight, July 4.

The serious question of selecting a referee for the championship battle for the time over shadows all other issues. It has brought to the city a small army of campaigners who patrol the hotel lobbies and other places where ring followers gather and loudly extol the merits of their respective candidates. "Say, I'm representing Honest John Hoots, the world's greatest referee, and I want you boys to plug for him," is the way every conference of fight attaches is suddenly interrupted. The oration is continued until the audience fairly wilts under the verbal barrage. Meanwhile, the conferences of experts have developed the unanimous opinion that the third man in the ring when the champion faces Dempsey in Tex Rickard's \$100,000 arena at Bayview Park should weigh at least 200 pounds. He should also be a six-footer, active on his feet. He should have years of experience in giving decisions, and after having met all physical qualifications should have the courage to give a just verdict at the end of the twelve rounds in event both men are on their feet.

Some ring experts point out that in previous battles Willard has shown that he is a past master in the art of "waiting his man out," holding back and being content with a small margin of victory. They say that the referee must be physically able to prevent this if the fight is to be made intensely interesting.

To retain the heavyweight title Willard must knock out the challenger or show sufficient aggressiveness to win the decision, and his followers declare that he will do this by changing his "out-waiting" tactics to a flashy offensive.

The champion probably will have 50 to 60 pounds the better of Dempsey in weight. He is expected to scale about 249 rnzins, and Dempsey about 195.

The boxers themselves will agree upon a referee if possible, but in event of failure, Rickard will make the selection under authority granted by the agreement. He probably would not take such action until two weeks before the fight. While Rickard has been silent on the subject, it is known that he favors Bill Brown, a New York ring official of years of experience. There are also several referees of Pacific coast fame entirely satisfactory to Rickard.

Jack Kearns, manager of the challenger, says he does not care who is chosen "so long as he knows his business and keeps the men pasting away at each other."

Virtually every referee of prominence has been mentioned, and many "dark horses" have been placed in dim spotlights by their advance agents. The list of well-known referees includes Matt Hinkel of Cleveland, who is popular with the boxing fraternity; Ollie Pecord, of Toledo; "Honest Dave" Fitzgerald, a former Alderman and ring official of New Haven, Conn., and many others.

Boy Scouts to Decorate Graves of Soldier Dead

WASHINGTON, May 27.—Graves of American dead in France will be decorated on Memorial day with wreaths provided by Boy Scouts, Colonel L. N. Livingston, British chief, announced today. President Wilson has been asked to arrange for the placing of the wreaths, for which each Boy Scout contributed 2 cents.

BIG SUMS ARE NEEDED FOR THE COMING YEAR

WASHINGTON, May 27.—Necessity for sharply reducing appropriations for government expenditures was urged upon the house today by Representatives Fess, Ohio, and Moore, Pennsylvania, Republicans. Each declared that unless radical retrenchments were made the government would have to go to the people for another large loan.

Mr. Moore criticised the policy of the house appropriation committees in reporting appropriation bills, which failed in the last session without conducting careful hearings to determine whether reductions could be made.

"We passed a revenue bill that was presumed to provide \$6,000,000,000 for the next fiscal year," he stated, "but that bill was so manipulated that it finally provided for only \$4,000,000,000. Expenses next year will run up to over \$7,000,000,000. Members of the ways and means committee and members of the appropriations committee declare that according to the estimates already in, our appropriations next year will amount to between \$9,000,000,000 and \$10,000,000,000."

"That will leave a deficit of \$6,000,000,000," Mr. Fess said the deficit the country probably would have to face at the end of the next fiscal year would amount to nearly \$11,000,000,000. "A large part of the money obtained from the victory loan was spent before it was received," he said.

MRS. STOCKER INFATUATED WITH HER ATTORNEY

LOS ANGELES, May 27.—Trips alleged to have been taken by Mrs. Clara Baldwin Stocker and her manager, Walter T. McGinley in Mrs. Stocker's private car, were described today by Mrs. Maude Smith, another witness.

Mrs. Smith who described herself as a former companion to Mrs. Stocker, told of numerous trips to Lake Tahoe, Paso Robles and San Francisco. On the trip to Paso Robles, she testified, she occupied the "poppy" room of the private car and Mrs. Stocker and Mr. McGinley occupied the "rose room."

Mrs. Stocker was so infatuated with Mr. McGinley, according to Mrs. Smith's testimony that she spent \$3000 for a surgical operation to remove wrinkles from her face.

"And, why did she do this?" Attorney Leroy Edwards, counsel for the plaintiff in action, asked.

"So that she would look better to Walter," Mrs. Smith replied.

Mrs. Smith declared that after she and Mrs. Stocker had seen a woman apparently kiss McGinley goodbye at his home, as he was about to drive away, Mrs. Stocker said:

"Well, I don't believe that she's his wife. I don't think much of her looks anyhow. Walter tells me he is going to marry me and I have to believe him at least half the time because when I am with him he has me hypnotized."

NAVAL PROGRAM IS ABANDONED

League of Nations Make Possible a Reduction in All Armament.

WASHINGTON, May 28.—The policy of the navy department for a fleet "second to none in the world" has been temporarily abandoned.

Secretary Daniels, appearing before the house naval affairs committee yesterday to outline the needs of his department for the next fiscal year, recommended that the entire 1919 three-year building program of ten battleships and ten battle cruisers be abandoned, saying that the trend of the world towards universal peace and the operation of the proposed league of nations made competition for supremacy of the seas no longer necessary.

The naval secretary asserted that as the United States had taken a foremost part in promoting the league of nations plan, it would be this nation's duty to show faith in the covenant by refusing to authorize further large additions to the sea forces. Work on the 1916 program, he said, should be completed as soon as possible, but the 1919 program, which it is estimated would involve an expenditure of more than a billion dollars, should be "wiped off the slate."

"There can be no half-way ground," he said. "Either we must have the league to safeguard the interests of every nation, or the biggest navy in the world."

Explaining the reasons for the change of policy, Secretary Daniels said that when he appeared before the committee last December and urged additional ship construction, the associated governments had not begun consideration of a league of nations plan and conditions made it necessary that the United States should not be caught again as unprepared as it was at the outbreak of the war.

"But since then," he said, "the covenant has been drafted and a new era for the world has begun. Peace will take the place of bloodshed. It will be far best for the interests of all nations that the United States should set a precedent by stopping where it is."

Mr. Daniels said if the United States did not launch new building programs other nations would follow the example and change their naval plans accordingly. Great Britain, France and Italy, he asserted, were waiting on the United States.

MAN'S VOICE CAN BE MAGNIFIED TO CANNON ROAR

SAN FRANCISCO, May 27.—A man's voice can be made as loud as the cannon's roar; it can be heard two to twenty miles. The ticking of a watch can be amplified until it sounds like breakers on an ocean cliff.

"It's no trick at all to magnify sound four or five million times, or indefinitely," said Tom Lambert, a wireless telephone engineer today. "All that is needed is to connect a number of vacuum valves in multiple with a wireless receiving set, and the thing is done. At the first receiving contact a voice will be normal. Cut in one vacuum valve and it is raised seven times; thereafter it squares itself—seven times seven to forty-nine for the next vacuum valve, and 49 times 49 for the next, and so on."

"I mean volume of sound; not power of transmission," explained Lambert. "In a test recently, a phonograph was connected with an amplifier at midnight, and we were lifting it up gradually to supply all San Francisco with song and amusement, when the police urged us to desist."

"In the Stadium at Golden Gate Park the ticking of a watch was made audible all over the grandstand while an athletic meet was in progress. Captain Robert W. A. Brewster, an experimenter, moved off 2000 feet and spoke quietly to his dog, and the dog couldn't be held. A wireless station which I am not permitted to name recently received a telephoned message from Europe, and through its amplifier startled duck hunters in the marshes eight miles away."

Mr. Lambert exhibited one of the vacuum valves. Its exterior resembled an ordinary 16-candle light bulb. Through the glass, however, could be seen electric winding that was dissimilar. Around a filament was wound convolutions of wire called a "grid." Above the grid was an encircling metallic plate. The current, it was explained, passed through each in the order described. The incoming wireless signals travel down the aerial wire to the tuning set and then to the vacuum valve, which is a "detector" or receiver.

For practical purposes, the vacuum valve has its use as in warships, where the wireless telephone speaks its message through a horn to several officers instead of to one using earpieces. It can be avoided to address audiences.

The wireless telephone is wonderfully extending the field developed by the wireless telegraph. Any wireless telegraph receiving set is equally good for receiving telephone messages. The transmitting instruments, of course, are different.

Every airplane possessed by Uncle Sam and all United States warships are equipped with wireless telephone apparatus. These on warships are efficient at least twenty miles.

RIOTING IN LIMA, PERU. LIMA, Peru, May 27.—Six persons were killed and twenty wounded in the riots and fighting which took place here today as a consequence of the strike. Martial law has been declared in Lima and Callao.

Trustworthy

You can get sick on second-class foods, but you can't get well on second-rate drugs.

When you're sick, the trustworthy druggist and trustworthy drugs are as necessary as a trustworthy doctor.

LEAGUE ENDORSED BY THE BAPTISTS

Northern Convention Closes by Adopting Resolution Upholding the Paris Covenant.

DENVER, May 27.—What is said to be the most notable meeting of the northern Baptist convention came to an end tonight with an inspirational service at the municipal auditorium. Tomorrow the 1763 delegates and 498 visitors will be guests of the Denver Motor club on a trip through the Denver mountain parks.

Among the resolutions adopted by the convention before adjournment today was one endorsing the Paris covenant of the league of nations. The resolution says:

"Resolved, that we express our gratitude to God for the return of peace, that we recognize in the Paris covenant for the league of nations, a great step in the advance of a Christian civilization, and that we urge our people to use their utmost influence to secure its ratification."

Tonight's meeting was addressed by Rev. W. S. Abernethy of Missouri, Rev. Carter Helm Jones of Pennsylvania, and C. A. Barbour, president of Rochester Theological Seminary, New York. In the afternoon Rev. James H. Franklin, D. D., foreign secretary of the American Baptist foreign mission society, delivered an address on the reconstruction work needed among the churches of France. He recently returned from an investigation of needs in the devastated area of France and Belgium.

The league of nations will not end war, Rev. Abernethy told the convention. "There is but one remedy," he said, "and that is society reconstructed according to God's plan. We have been living together these untold generations and do not yet know how to live together peaceably. We never have honestly tried God's plan. Society will be reconstructed only when individuals here and there and everywhere accept Christ's leadership and obey his will."

HOUSE PROPOSAL BEFORE COUNCIL

Determined Effort Made to Effect Settlement of Italian Dispute.

PARIS, May 28.—The council of four of the peace conference is making a determined effort to reach a settlement of the Italian question today. Andre Tardieu of the French delegation has framed a formula which is understood to follow generally the lines of a compromise proposed by Colonel E. M. House of the American mission was considered last week.

Colonel House, M. Tardieu and Premier Orlando were present at the council meeting this forenoon.

GERMANS FORCED TO SALUTE THE AMERICAN FLAG

COBLENZ, Monday, May 26. (By the Associated Press).—Male citizens in the streets of Coblenz were compelled to salute the American flag Monday when the American third army's composite regiment marched through Coblenz on an informal review.

As the flag passed along the streets the color guards compelled the Germans to remove their hats in token of respect.

This was the first time since their arrival on the Rhine that the Americans had insisted upon a salute from civilians and the action caused much excitement among the Germans.

A small boy is always very industrious when it is time for him to go to bed.
